Product Range

Transformer Bushings

CJI is the pioneer manufacturer of High Voltage Transformer Bushings required by a wide variety of Transformer Manufacturers. It has pioneered the design and manufacture of Extra High Creepage Bushings for areas with very high pollution. The insulator buyers cover the entire gamut including manufacturers of :

- ⚡ *Distribution Transformers*
- ⚡ *Power Transformers*
- ⚡ *Current Transformers*

Hollow Bushings

CJI produces the entire range of High Voltage Hollow Bushings required by a variety of original Equipment Manufacturers (OEM's) exhibiting Superior Electrical and mechanical characteristic for use in varied equipment including :

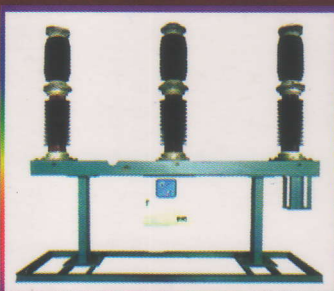

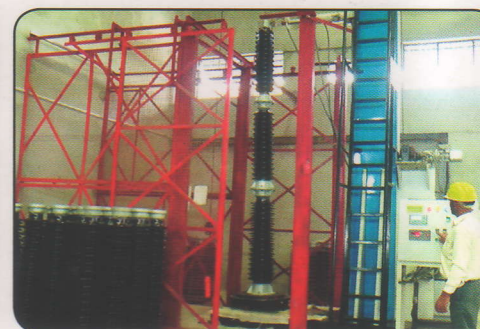

- ⚡ *CT'S / PT'S / CVT'S*
- ⚡ *Circuit Breaker*
- ⚡ *Lightning Arrestor*
- ⚡ *Condensor Bushing*

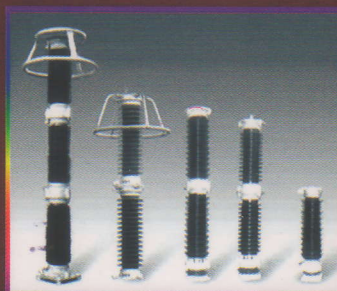

Solid Core Insulator

CJI produces a variety of High Voltage Solid Core Insulator, upto 400kV covering the entire gamut of products like :

- ⚡ *Post-Insulators for Disconnectors*
- ⚡ *Station Post insulator*
- ⚡ *Busbar Insulator*
- ⚡ *Insulators for Wave Trap*
- ⚡ *Special Application Solid Cores*

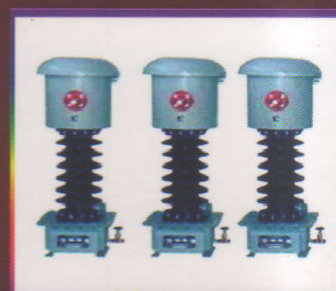

Circuit Breaker

Lightning Arrestor

Condensor Bushing

Current transformer

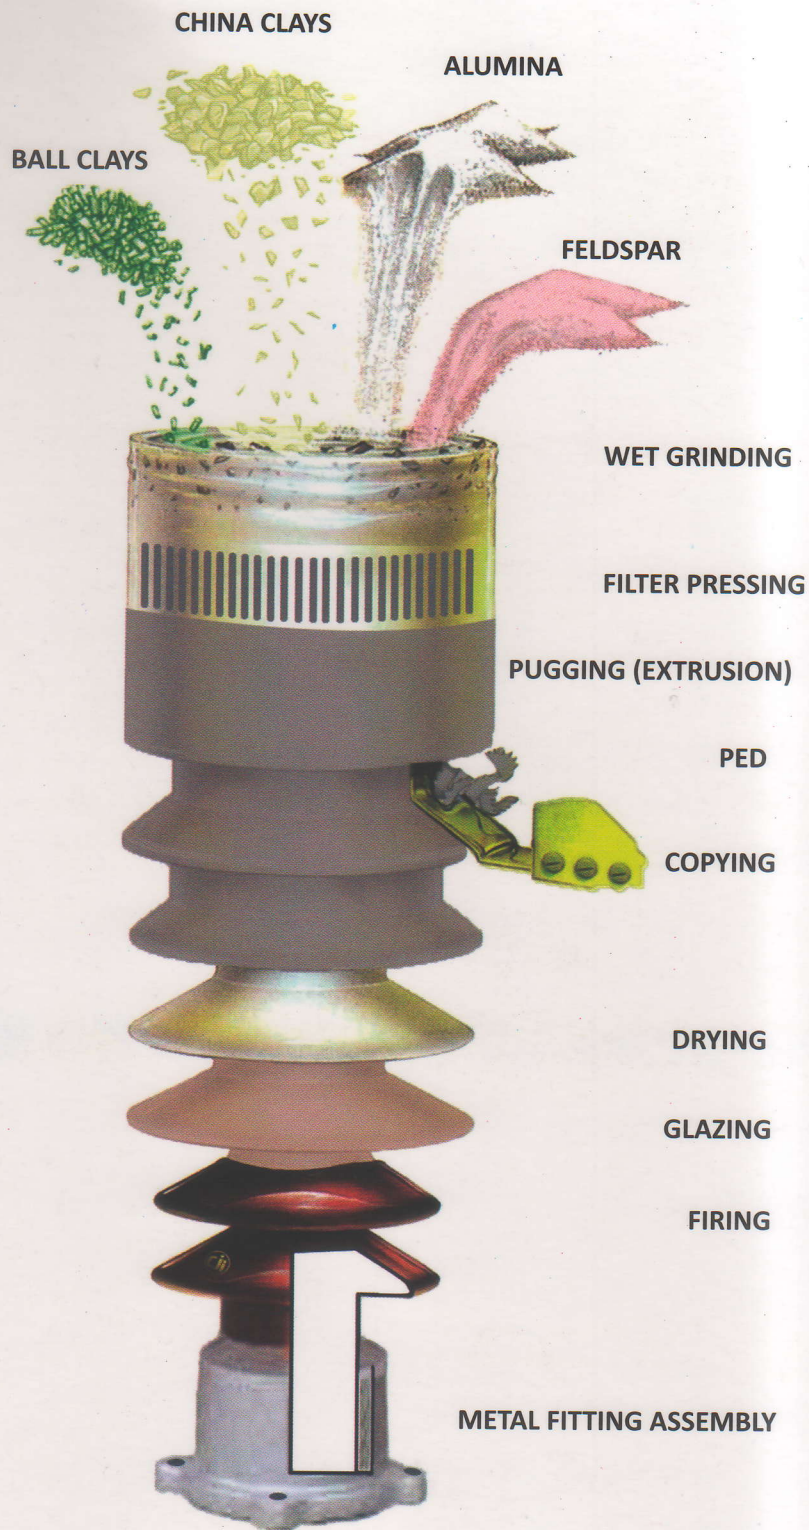

About CJI

CJI PORCELAIN is a manufacturer, supplier and exporter of electrical insulators in India. The company was established in 1988 by a group of professionals with a vision of creating an enduring benchmark in India for qualitative excellence in Porcelain Electric Insulators.

Today CJI with a built up area of 3,00,000 sq.ft. spread over a sprawling 50 acres of land, is having its Corporate Office in the Central Business District (CBD) of New Delhi, the Capital city of India. CJI is at the forefront of introducing new product styles for the domestic and export markets as per IS, DIN, IEC, and other international standards.

This has become possible due to product and process technology sourced from the world leaders coupled with continuing emphasis on in-house development in technology and adaptation to market requirements.

Today customers comment that CJI is amongst the most progressive porcelain manufacturing plants in India. Because of CJI's new and innovative production flow systems and state of the art technology. These manufacturing concepts integrated with CJI's ISO 9001-2015 Quality Programme with a strong emphasis on ISO: 14001-2015 & BS OHSAS: 18001-2007 allows for manufacture and marketing of high quality Electrical Insulators.

CJI is the one of a leading company in India of its kind to achieve ISO 9001, ISO: 14001 & BS OHSAS 18001. The gains made in the effort to achieve ISO certification and continuous improvement since then has put CJI in the top slot to provide unparalleled quality and customer service. The implementation of the integral management system was an endeavor that required several years of dedicated work by the CJI Team.
